

WELL OPERATIONS UPDATE

26 August 2011. Triangle Energy (Global) Limited (Triangle Energy) (ASX: TEG) is pleased to provide an update on its work-over operations.

Surface facilities at Well A-1 have been reinstated and Triangle's team have commenced flow back to remove completion fluids. The well continues to clean up as the completion fluids are produced back to surface.

Preparations continue to clear lost circulation material blocking (LCM) reservoir communication in well A-2.

Triangle Energy looks forward to providing further updates.

About Triangle Energy:

Triangle Energy is a gas production and exploration company based in Perth. Its wholly-owned subsidiary, TPI, is based in Jakarta and is the 100% holder and operator of the Pase PSC which covers an area of 922km² in Aceh Province, North Sumatra, Indonesia.

Triangle Energy has three producing wells. It has been cash-flow positive since early 2010 and continues to operate profitably. The majority of the gas produced is sold at premium LNG prices. Triangle Energy is continuing to review further acquisition opportunities in the area.
