

Continuous Disclosure Policy

Continuous Disclosure

Triangle Energy (Global) Limited (**Triangle** or **Company**) is committed to:

- Ensuring that shareholders and the market are provided with full and timely information about its activities;
- Complying with the continuous disclosure obligations contained in the ASX Listing Rules and the applicable sections of the Corporations Act 2001 in Australia; and
- Providing equal opportunity for all stakeholders to receive externally available information issued by the Company in a timely manner.

The Company's Disclosure Policy covers financial markets communication, media contact and continuous disclosure issues. It forms part of the Company's corporate policies and procedures and is available to all staff.

The Company Secretary manages the policy. This policy will develop over time, as best practice and regulations change, and the Company Secretary will be responsible for communicating any amendments.

Guiding Principle

The Company will immediately notify the market via an announcement to the ASX of any information concerning the Company that a reasonable person would expect to have a "material" effect on the price of the Company's shares or securities or influence an investment decision on those securities.

The Company seeks to ensure that its ASX announcements are expressed in a clear and objective manner, allowing investors to assess the impact of the information provided when making any investment decision.

The Company will ensure that it does not communicate material price sensitive information to an external party except where that information has previously been disclosed to the ASX and acknowledges the importance of safeguarding confidentiality of corporate information to avoid premature disclosure.

ASX Disclosure Carve-Outs

Disclosure is not required, where all of the three following requirements are met:

- a reasonable person would not expect the information to be disclosed;

- the information is confidential and ASX has not formed the view that the information has ceased to be confidential; and
- one or more of certain conditions contained in ASX Listing Rule 3.1.3 are satisfied being:
 - It would be a breach of a law to disclose the information.
 - The information concerns an incomplete proposal or negotiation.
 - The information comprises matters of supposition or is insufficiently defined to warrant disclosure.
 - The information is generated for the internal management purposes of the entity.
 - The information is a trade secret.

“Material” Information

Information is considered material if there is a substantial probability that the information would influence investors in deciding whether to invest in or divest the Company’s securities. In particular, results of drilling and sampling programs, economic studies and earnings forecast guidance will not be provided to the market where this has not been released to the market in general.

Communication Protocols

Reporting of Material Information

The Company's protocol in relation to the review and release of ASX announcements (and media releases) is as follows:

- (a) Information is determined by the Board, Company Secretary or other employee of the Company as being of a type or nature that may warrant disclosure to the ASX;
- (b) If not known by the Managing Director, all information should be reported to the Managing Director;
- (c) The Managing Director will determine the nature and extent of the information and consult with the Board and Company Secretary to determine the form and content of any ASX Release;
- (d) The Managing Director will agree on the text of the proposed release and will be responsible for ensuring that Company establishes a vetting procedure to ensure that the announcements are factual and do not omit any material information. The Managing Director will also be responsible for ensuring that Company announcements are expressed in a clear and objective manner that allows investors to assess the impact of the information when making investment decisions. The Company Secretary may also be required to draft the release for review and will liaise with the Managing Director to ensure all announcements are made in a timely manner;

- (e) Depending on the nature of the release, the sensitivity of the information and availability of the Board, the Managing Director will then determine whether the Board, as a whole, should be involved in the review of the Release;
- (f) The Managing Director and Company Secretary will then determine if the release is to be classified as “Price Sensitive” when it is uploaded to the Market Announcements Platform; and
- (g) The Company Secretary will then release the ASX Release to the market and ensure that the website is updated.

The Company will not release publicly any information required to be disclosed through the ASX until confirmation is received from the ASX that this information has been released. The Board and Company Secretary receive direct confirmation from ASX that an announcement has been released.

Authorised Spokespersons

Only authorised persons are allowed to make public statements to external parties, shareholders, investors, stockbrokers, analysts or the media in relation to any matters affecting Triangle. Currently, those persons authorised are:

- The Managing Director, the Chairman; or,
- Their delegates nominated for that purpose.

Those authorised employees may clarify information that the Company has publicly released but will not comment on material price sensitive issues that have not been disclosed to the market generally.

Any staff member who receives a request for comment from an external third party is to refer the enquiry to the Managing Director.

Distribution of Information

All information released to the ASX after clearance from the ASX will be promptly placed on the Company’s website, within 24 hours at the latest.

Any substantive written material or presentations made to institutions, stockbrokers, or shareholders, which do not contain material information, will be released to ASX prior to such presentations and these too will then be placed on the company website.

Management Responsibilities

The Company’s employees and contractors must be made aware of this Continuous Disclosure Policy. Employees or contractors must disclose any information which comes to their attention and they believe potentially may be material to the Company Secretary or Managing Director.

Employees and contractors must be made aware of the “no comment policy” to external parties on any matters which may be material to the Company.

Trading Halts

The Company may request a trading halt to maintain orderly trading in the Company’s shares or securities. The Company Secretary will manage the process in consultation with the Managing Director and/ or the Board, as required.

Contact with the Market

Key executives interact regularly with the market on the Company’s activities in a number of ways, including briefings, market announcements, regular updates on industry issues, one-on-one briefings, meetings and educational sessions.

In addition, the Company occasionally provides background and technical information to institutional investors and stockbroking analysts to support announcements made to the ASX about the Company’s on-going business activities.

At all times when interacting with external individuals, investors, stockbroking analysts and market participants, the representatives of Triangle should adhere to the guiding principle set out in this policy.

Open Briefings to Institutional Investors and Stockbroking Analysts

The Company may hold open briefings (i.e. where all members of a relevant group are invited) with shareholders, investors and/or stockbroking analysts to discuss information that has been released to the market.

Representatives of Triangle are under the obligation of this policy and should not disclose any material price or value sensitive information that has not been announced to the market generally.

With regards to open briefings, the Company will place any written briefing and presentation materials onto their website at the conclusion of the briefing; and for the purposes of this policy, public speeches and presentations by the Company’s Managing Director will be classed as ‘open briefings’.

One-on-one Briefings with Stockbrokers, Analysts and Institutional Investors and Shareholders

It is in the interests of the Company’s shareholders that stockbroking analysts have a thorough understanding of the Company’s business operations and activities. In addition, other professional investors may seek to better understand certain aspects of the company’s strategy.

From time to time, the Company participates in one-on-one briefings with various investment professionals. At these briefings the Company may provide background and technical information to assist these people in their understanding of the Company's business activities. The Company's policy is that no previously undisclosed material price or value sensitive information will be disclosed at these briefings.

For the purposes of this policy a one-on-one briefing includes any communication between the Company and a stockbroking analyst including, for example, phone calls or e-mails made to the Company's Managing Director. Any written materials to be used at open or one-on-one briefings with institutional investors or stockbroking analysts will be reviewed by the Managing Director to ensure all information has previously been disclosed to the market. Where this is not the case, the information will be disclosed in the manner outlined above.

Review of Analyst Reports

The Company recognises the important role performed by analysts in assisting the establishment of an efficient market with respect to the Company's securities. However, the Company is not responsible for, and does not endorse, analyst reports that contain commentary on the Company.

The Company will not provide non-disclosed material price or value sensitive information in response to such reports. The information may be reviewed only to correct factual inaccuracies. Any correction of factual inaccuracies by the Company does not imply endorsement of the content of these reports.

The Company will only comment on results of exploration and sampling programs and financial outcomes and other forecasts that may be contained in this type of information in line with previously publicly released comment.

Managing Market Speculation and Rumours

Market speculation and rumours, whether substantiated or not, have a potential to impact the Company's share price. Speculation may also contain factual errors that could materially affect the company.

The Company's general policy on responding to market speculation and rumours is that "the Company does not respond to market speculation or rumours". However, the Company may issue a statement in relation to market speculation or rumour where and when it considers it necessary.

Speculation may result in the ASX formally requesting disclosure by the Company on the matter, in which case the Company will respond to the request within the timeframe set by ASX.

Renewal of the Continuous Disclosure Policy

This Policy will be formally reviewed by the Board each year.
